

CSR Policy

We are conscient of our role in the society, and we want to be a responsible business that meets the highest standards of ethics and professionalism.

Compliance and Proactiveness

Compliance refers to our company's commitment to laws and regulations, and willingness to observe community values. Proactiveness is every initiative to promote human rights, protect people and the natural environment.

Allard-Europe always respects the law and honour its internal policies. We ensure that all our business operations are legitimate, and keep every partnership and collaboration open and transparent. We always conduct business with integrity and respect to human rights.

We ensure that we don't risk the health and safety of our employees and community and support diversity and inclusion. We are a committed equal opportunity employer and will abide by all fair labour practices. We ensure that our activities do not directly or indirectly violate human rights in any country when sourcing abroad.

Aware of the significant challenges climate change brings, we contribute to a better world by striving to minimise our ecological impact. This by focusing on energy saving, resource reuse and reduced CO₂ emissions.

We define targets and monitor closely our performances in all related fields to realize our ambitions.
